

Memorandum Thursday, 8/12 Update

Here is the latest information on the brands affected:

- **Celestial Seasonings**
Items will be reformulated as rapidly as possible to assure compliance with labeling requirements. There is no ETA for reformulated product.
- **GT's / Millennium**
GT's has no ETA for reformulated product to be produced or distributed. Prior comments on GT Facebook site noting end August availability have not been accurate. There are many rumors presently circulating regarding distributors and/or retailers presently selling GT product – any product presently being sold at retail is old. No reformulated product has been produced or distributed.
- **Katalyst**
New machinery to support reformulated production process scheduled to be in place end of August. Production to resume after new lines are installed.
- **High Country**
Company has reformulated, and is shipping UNFI new product. Limits on supply are impacting our ability to meet demand for this line.
- **Honest Tea**
Product reformulation has been completed. ETA of product into UNFI DC's is end August.
- **Kombucha Botanica**
Company has completed reformulation process. Presently aiming to have product available for orders mid-September.
- **Pronatura**
No information on go-forward approach by the supplier is available presently. Supplier has provided no planned course of action to return product to distribution.
- **Vibranz**
Reformulated product has been back in the marketplace for several weeks. Supplier is not able to meet current high demand for product. Expect ongoing supply issues.
