June 20, 2016

To whom it may concern,

This letter is to inform retailers and distributors that Sanders and Morley Candy Makers Inc. products, do not comply with Vermont GMO labeling laws at this time. We are waiting for a national stance to preempt each states mandated requirements.

We are committed to making the best products with clarity of information for consumers. Our desire is for a national GMO labeling system as opposed to a costly and inconsistent state by state system.

If your company is selling product into Vermont, and you have concerns about our products not complying with their laws, please contact us to discuss a solution.

Thank you

Sincerely,

Tiffany Van Hemm
