March 10, 2016

Dear Valued Customer,

We received your request to verify the labeling of products with a McCormick brand in compliance with Vermont's Genetic Engineering ("GE") food labeling rule, Act 120 and Consumer Protection Rule 121 ("Vermont Rules").

This letter is to confirm that we are aware of the labeling rules and are actively executing our plan to ensure that our products will be in compliance within the timeframe pursuant to the Vermont Rules.

Please contact us should you have any questions related to our compliance strategy.

Sincerely,

Tiina Henkusens  
North Americas Regulatory Affairs Director
