

Vermont Labeling Law Affidavit and GMO Labeling

To Whom It May Concern:

Please be advised that we are unable to execute the requested affidavit concerning ADM product(s) purchased by your company.

Soybeans grown in commercial quantities in the United States include both genetically engineered (GE) and non-GE varieties. Consequently, the products manufactured from soybeans may or may not be produced from GE soybeans.

Guidelines for labeling of products vary depending on specific state or certifying agency guidelines. Products may have exemptions based on intended use, inclusion rate, etc. ADM recognizes the importance of this issue to your business. We want to assure you that we will continue to provide assistance to support your labeling requirements as appropriate.

Sincerely,

ADM Technical Service
